

Elton Chang

(510) 513-2561 • trenan2004@gmail.com • <https://eltonchang1.github.io>

EDUCATION

Carnegie Mellon University	May 2026
M.S. in Data Analytics for Science, GPA:3.97/4.0	Pittsburgh, PA
University of California, Santa Cruz	June 2025
B.S. in Computer Science, GPA:3.7/4.0	Santa Cruz, CA

EXPERIENCE

Founder/Technical Lead	Aug. 2025 - Present
<i>Ashe System</i>	Pittsburgh, PA / San Francisco, CA
- Improved validated Precision@20 from 35% to 62% using XGBoost for temporal AOG-risk ranking across maintenance, inventory, and supplier features. - Increased median warning lead time from 6.5 to 10.2 days using Optuna to optimize model hyperparameters and early-warning decision thresholds.	
Infrastructure Engineer Intern	July 2023 - Sep. 2023
<i>Wintec Industries Inc.</i>	Newark, CA
- Reduced configuration drift across more than 15 non-production hosts by using Terraform to provision standardized testing environments with reusable infrastructure modules. - Cut anomaly detection time by 40% by engineering telemetry, alerting, and reliability dashboards across enterprise backup and replication pipelines.	
Software Engineer Intern	July 2022 - Sep. 2022
<i>Wintec Industries Inc.</i>	Newark, CA
- Built a cloud-hosted internal file management system that automated file ingestion with scheduled Python cron jobs, indexed metadata, and tracked company data lifecycle states. - Improved onboarding and platform adoption by 35% by creating developer and user-facing documentation for architecture, workflows, and system usage.	

PROJECTS

Next Best Action (Collaboration with PNC)
- Ranked high-impact advisor opportunities with a PNC Next Best Action pipeline using HistGB, LightGBM, and LightGBM-XGBoost ensemble to predict next-month product adoption. - Result achieving 0.811 ROC AUC and 95% top-3 hit rate on supported recommendations.
Torflix
A BitTorrent-backed movie library with a FastAPI service that owns swarm I/O, storage, and progressive streaming. With web clients available for catalog, magnet enqueue, and playback while transfers complete.
TraceFrame
A local-first evidence tracker for data science workflows. It records datasets, transformations, SQL outputs, metrics, charts, claims, checks, source-row samples, and lineage under a project-local
Quantifying Meritocracy (Research)
Extended the University of Catania's Talent vs. Luck model by introducing a solidarity parameter and applying statistical modeling with agent-based simulations to quantify systemic drivers of inequality.
